

Products for the Creative Mind®

**ARTOGRAPH®**

# ARTOGRAPH® FUTURA Light Table

#10062 Charcoal/Clear Glass

Our **Artograph® Futura Light Table** is great for drafting, drawing, or crafting. Its large, tempered, safety glass worksurface adjusts from flat to 35°. We've designed a custom fit LightPad® that sits neatly underneath the glass. Other features include a large pencil drawer, four removable side trays for supplies and three slide-out drawers.

**LIGHT**Tracer<sup>2</sup>

#25375 White

**LIGHT**Tracer<sup>®</sup>

#25365 White

The **LightTracer**<sup>®</sup> and the 80% larger **LightTracer**<sup>2</sup> have slanted surfaces, making them more comfortable to use than standard flat light boxes. Rest either on your lap or table and you have a comfortable surface at an optimal angle for creative work. With brilliant LED lights, they always stay cool, and have no bulbs to change.

# LED Tracer®

#25370 Blue

The **LED Tracer®** opaque art projector makes tracing, enlarging, and transferring images easy! The perfect tool for decorators, crafters, artists, painters, and hobbyists. The long lasting LED's provide eight times more lux than the Tracer®, consume less energy, and emanate less heat.

# EZ Tracer®

#25550 White

The **EZ Tracer®** opaque art projector makes tracing, enlarging, and transferring images easy! It's compact and easy to use, and is a great tool for youth arts and crafts projects.

#25042 White

Replace your **EZ Tracer LED Bulb** with this super bright bulb. It features over 3,000 lumens of brightness, 25,000 life hours, and a color temperature of 5,000K.

# GLUE Guns

#13410 Blue/White

#13411 Blue/White

We now offer cordless **Glue Guns** to expand your artistic arsenal. Ergonomically designed and battery operated, these guns offer up to a 2 hour runtime and are easily charged through a 5W rated USB adapter.

# MINI RING LIGHT with desk stand

#25600

Our **Mini LED Ring Light** is ideal for Photography, Art Studios, Video Streaming, Make-Up Tutorials and more. Bright enough to illuminate your arts and crafts area and compact enough to store it away easily.

Our **LED Ring Lights** are ideal for Photography, Art Studios, Video Streaming, Make-Up Tutorials and more. The 16 and 18 inch Ring Lights feature brightness and color temperature controls, and the 18 inch Ring Light also includes slots for battery packs (sold separately).

# 18" RING LIGHT with floor stand

Includes tripod, phone clamp, remote for phone, carrying case, and an additional remote for dimming and temperature control.

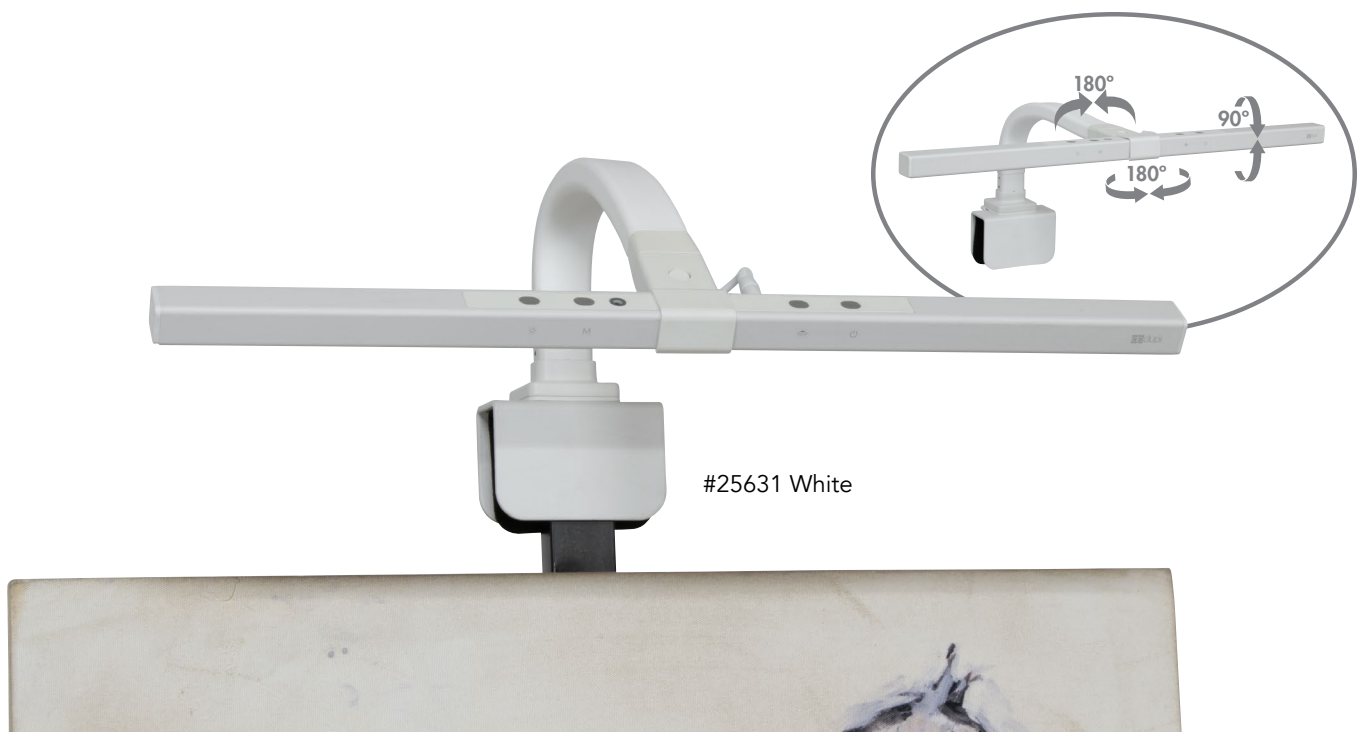

Both Ring Lights include a tripod stand, phone clamp, remote control for your cel phone and a carrying case. The 18" Ring Light also includes an extra remote for dimming and temperature control.

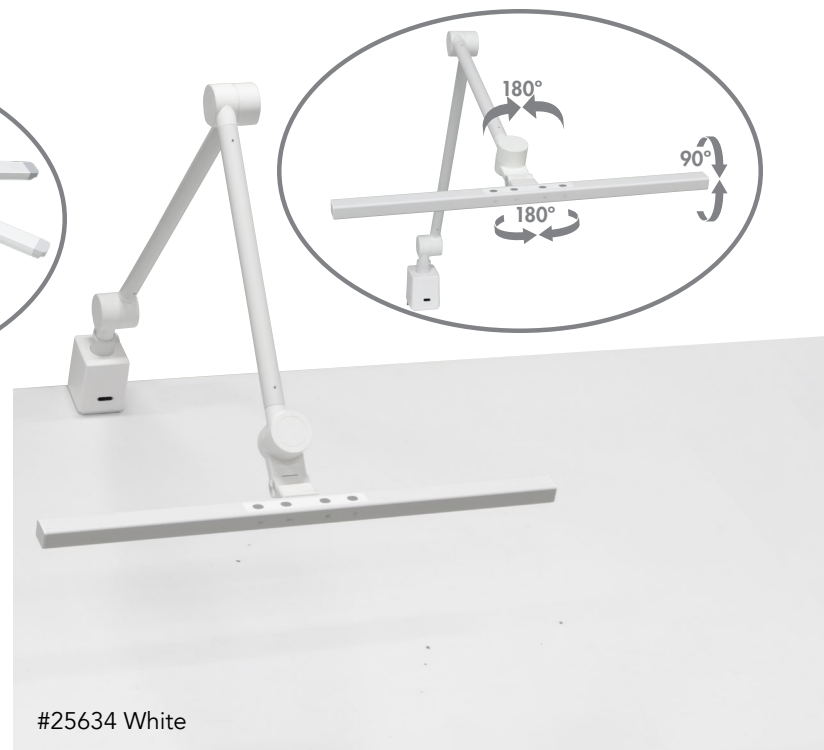

Our new table lamps are a great addition to your creative tools. The **LED Bar Lamp** has a flexible neck, a 9.5 inch LED Bar, three color temperature settings, and four brightness settings. The **LED Magnifying Lamp** has a 3.5 inch lens to get a detailed view your work and the front of the lens also has a small magnification loupe for finer detail.

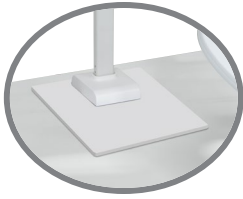

The **LED Easel Lamp with Padded Clamp** attaches to the top or side of your metal or wood easel, and illuminates your artwork. Very useful in low light conditions or while working at night, this Easel Lamp features four color temperature settings and five brightness settings.

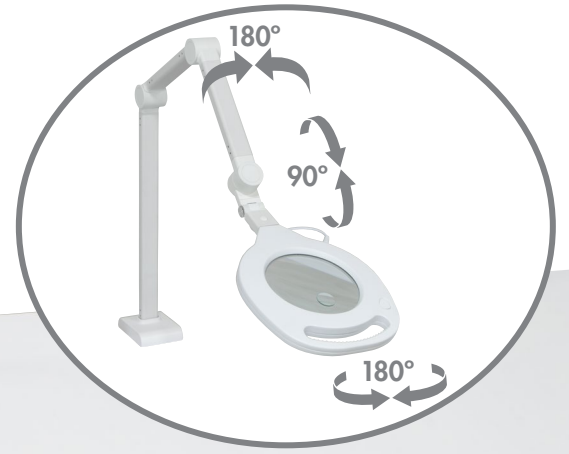

Both the **Split Bar LED Lamp** and **T-Bar LED Lamp** give you the flexibility of lighting your art at various angles. Both feature three color temperature settings, and adjustable neck, and a USB charging port. The Split Bar Lamp spans 24" while the T-Bar Lamp spans 18". The metal clamp attaches to almost any 1.5" thick table top.

Lamp can be attached to table edge with metal clamp or placed on the heavy base for flat table use.

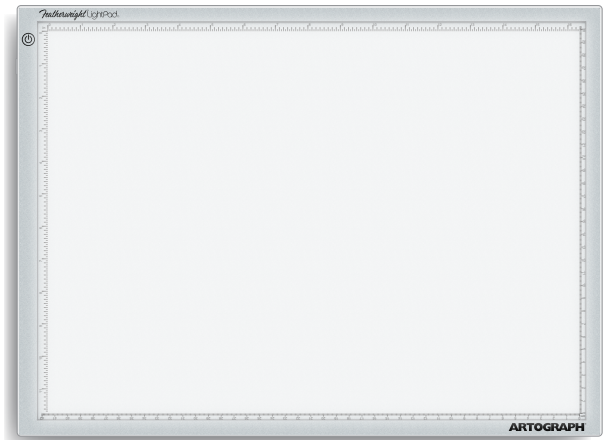

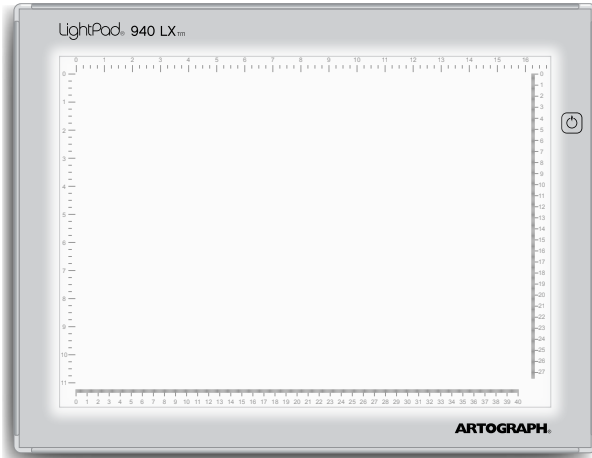

#25635 White

The **Large LED Magnifying Lamp** is equipped with a 4.5" lens, which provides sharp, detailed visibility, and includes a small front 1" loupe for enhanced close-up work. The heavy duty metal clamp boasts a 3.5" opening, or use the included weighted base for flat table use.

# LightPad®

# Featherweight™ LightPad®

#25920 Silver

26.5" W x 19.25" D

Our **LightPad® LX** series is great for scrapbooking, embossing, visualizing and viewing, stained glass, stenciling, tattoo transferring, calligraphy, quilting, sewing projects, and more! Super thin, super light, and super bright, the **Featherweight™ LightPad®** series is our next generation of tools for the artist, scrapbooker, calligrapher, tracer, embosser, and quilter.

#25946 Black

Add a set of 4 **PadPucks®** to provide an adjustable and comfortable drawing angle to any of our LightPads® as well as to any tablet, laptop or drawing board.

# Flare100

Includes Monopod Arm

The **Flare 100** is our newest art projector and is aimed at the beginner or novice artist. Five art grids are built-in to give you a head start in your artistic journey. This entry level projector features manual focus and manual keystone, WiFi and Bluetooth capability, a 3-Watt speaker, and includes a Monopod Arm for projecting and various angles.

# Flare500

#25500 White

The **Flare 500** features the latest technology for your most advanced art projects. It boasts the latest innovations available on the market, plus the addition of **36 overlay grids** which will help expand your creative side. A digital projector for the more advanced artist.

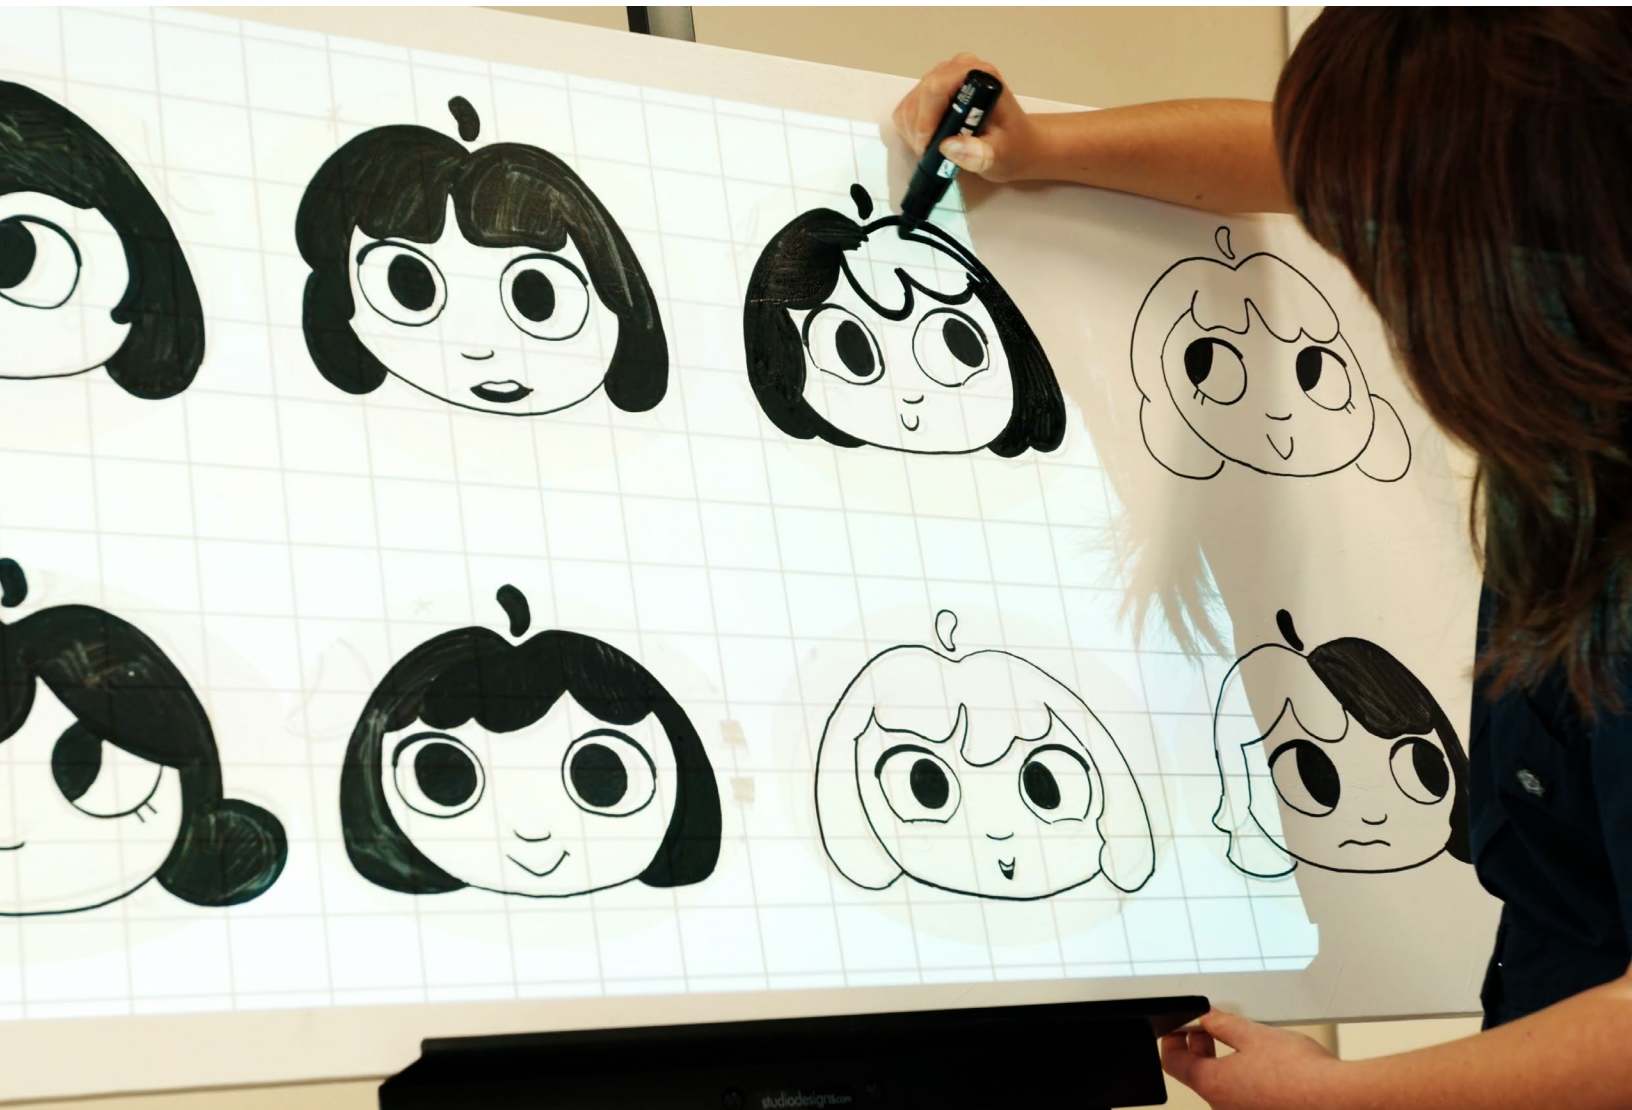

# INSPIRE1500

#25150 Black

The **Inspire 1500** digital projector features the latest advancements in projector technology, including 4K support, auto focus, Bluetooth, and Wifi screen mirroring connectivity. To make this an indispensable tool for artists, Artograph® programmed the software with 96 grids (32 unique patterns, 3 colors each) to facilitate complex perspectives and techniques.

# ACCESSORIES

#53100 White

#53101 Black

#53102 Turquoise

#25008 Black

The **Kubx™ Cart** with glass top features a powder-coated steel frame and heavy-duty plastic, a tempered glass top, and six swing-out drawers. The **Projector Stand with Round Base** features easy-twist locks for quick adjustments and includes a phone clamp.

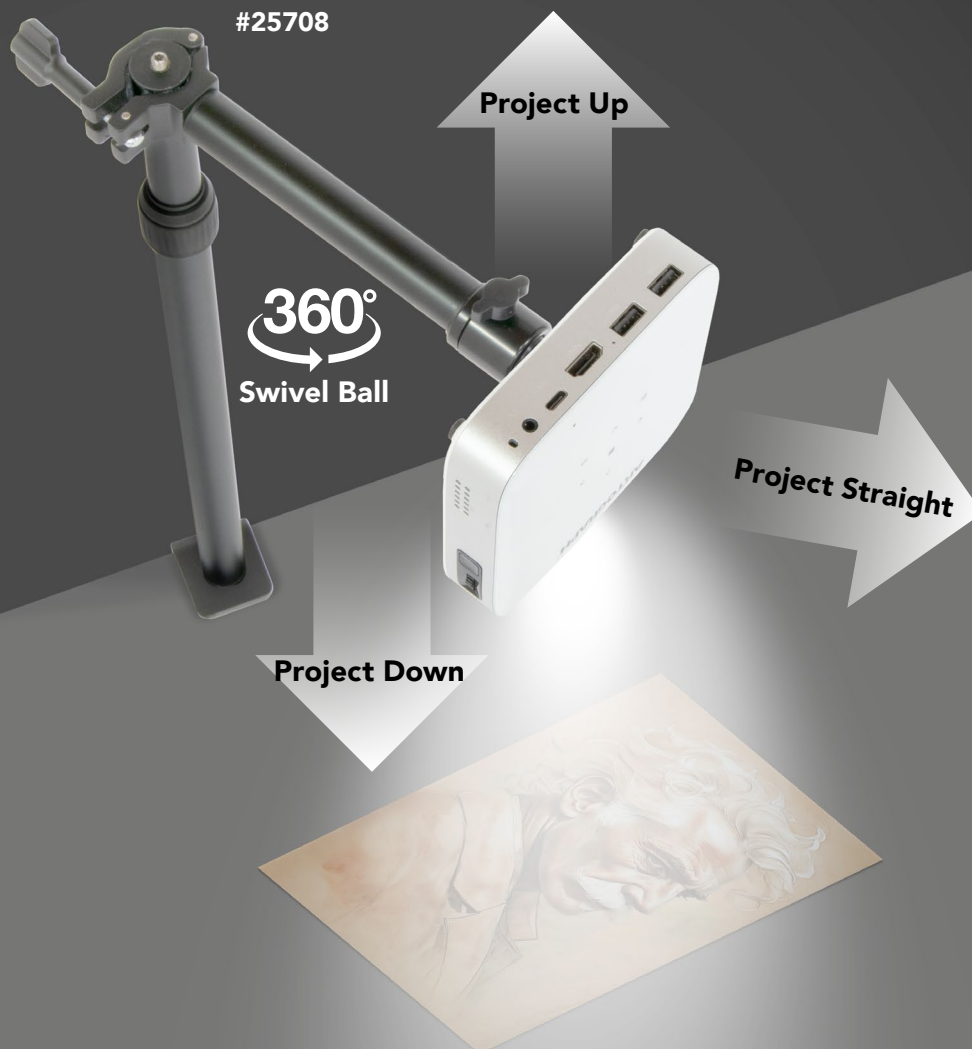

#25708 Black

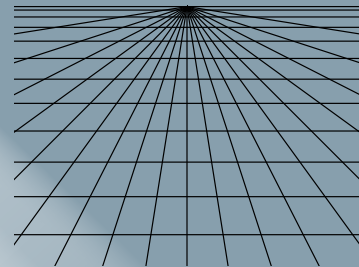

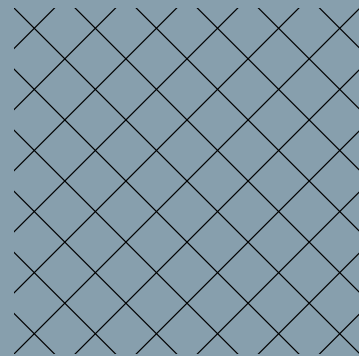

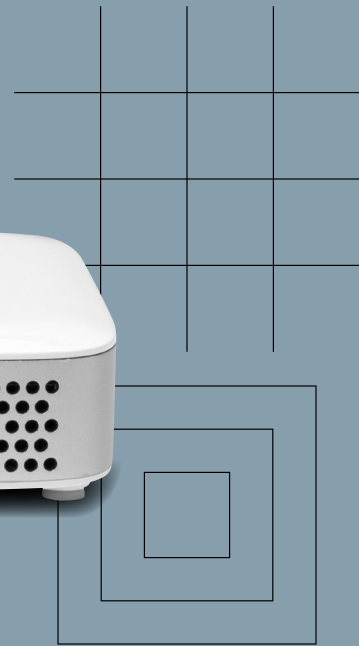

#25005 Black

The **Monopod Arm** allows you to project straight forward, up towards the ceiling, or down to your desktop. Mount a projector, mobile phone, ring lights, even a professional level DSLR camera. The **Mini Tripod** feature 360° swivel ball attachments, a 90° tilt, standard 1/4" bolts, and include adjustable phone clamps.

Our line of digital projectors range from beginner, intermediate, to advanced users, each with it's own set of built-in art grids.
